ASTERIAS— PATRICIA URQUIOLA 2016

1—
3

Asterias, a cactus that grows in the mountainous regions of Mexico, lends its name to this new design from Patricia Urquiola. A generously-sized round table, featuring a central base reminiscent of the cactus from which it takes its name. It consists of six curved, wedge-shaped, wooden panels, applied protruding over the central plinth. The panels are 3D printed. The top (160 or 180 cm) features a rounded edge sub-divided, in the wood version, into four wedges that give rise to an interesting geometric pattern. The table can also be fitted with a practical accessory: a central Lazy Susan turntable, very popular in Asian countries.

FEATURES

Series of round tables with central base having six shaped faces, made in the same finish as the top. The tables are available with a Lazy Susan Ø 850, except for the version with cement finish. The Lazy Susan is in the same finish as the table. The cement grout finish is done in two special colours that are not consistent with Molteni lacquer colours.

TECHNICAL INFORMATION

WOOD BASE

Internal structure in metal with cement counterweights. External block made of curved moulded multilayer panels in Beech (*Fagus sylvatica*), covered in veneer of Eucalyptus (*Eucalyptus globulus*) or Oak (*Quercus*).

GLOSSY LACQUERED BASE

Internal structure in metal with cement counterweights. External block made of moulded structural polyurethane painted in Molteni range colours.

CEMENT GROUT BASE

Internal structure in metal with cement counterweights. External block made of moulded structural polyurethane with manually applied cement composite finish.

TABLE TOP

Medium density fibreboard panel veneered in Eucalyptus (*Eucalyptus globulus*) or Oak (*Quercus*), or painted in Molteni range colours or hand-finished in cement composite.

LAZY SUSAN

In folded aluminium sheet veneered in Eucalyptus (*Eucalyptus globulus*) or Oak (*Quercus*), or painted in Molteni range colours. Hardware for rotation mechanism in different materials.
