

Book hod

Peter Marigold

Inspired by the bricklayers hod, this witty book holder and occasional storage item is made from solid oak and powder-coated steel. The circular base is made from steel as is the mount joint between the stem and book holder. The holder and stem are made in solid oak. The book holder itself is made like a rectangular box missing three sides. This design has the feel of a contemporary sculpture. Available in powder-coated green or orange. Made in Norfolk, England and the EU.

hod W40 x D40 x H90 cm
