

Calvo side table

Lee Kirkbride

Lee Kirkbride's Calvo side table lends itself to a variety of settings and a number of uses. Its tilted stem and 3-point base allow Calvo to sit closer and more comfortably next to an armchair, sofa or bed. The tabletop is produced from solid ash and incorporates a recessed surface giving the top a delicate tray edge detail. The stretcher that connects the column and the foot of Calvo's base is tapered to give the illusion of an elegantly shaped twist. Made in the EU.
