

LIGHT DROP SMALL

Design by e27 Berlin

LIGHT DROP, an illuminating diversion. This lamp by e27 makes no secret of its special effects. The perforated metal top over a hand-blown glass base not only serves as the lampshade, but also diffuses the light, providing a soft luminosity. It is an “illuminating” design in the strict sense of the term, which was nominated for the 2014 German Design Award. Whether in the centre of the room, on an end table, or in the window, the Light Drop ensures the proper mood lighting and atmosphere.

Colours / Order-no.		top copper coated	
top powder coated
