

Munro sofa

Donna Wilson

SCP

The Munro chesterfield sofa is made from a European hardwood frame, zig zag springs and is upholstered in natural fibres, animal hair and wool. It features two large piped edged feather cushions that are notable for their depth. The back is deep buttoned and hand pleated. It has turned stained beech legs with brass plated wheels. This timeless and enduring sofa design had been remade by SCP. Large and robust, the chesterfield is comfortable, familiar and grand. The sofa is upholstered in Bora Da fabric, a double cloth designed by Donna Wilson, also available in fabric or leather. Made in the UK.

two seat W 193.5 x H 76 x D 95 cm
